

Our aim is a simple one, to provide the customer with the best possible driver training experience. This involves 'engaging' instructors, modern vehicles bought new from Toyota and our own excellent off road reversing area. Our Training hours are 09:00 – 16:00 with 1:1 tuition, you will not share your training course or have it shortened to a half day – which is extremely popular with the vast majority of other driving schools.

An Example of a Category B+E one day 7 hour course.

*The day starts at 9:00am, welcoming the customer to our site, some straight forward health and safety documents are signed and an introduction to your instructor. Then it's out into our training area to be shown around the vehicle, a **Toyota Hilux and iFor Williams Trailer**. You will be shown around the outside including all driver maintenance points such as oil, coolant, screen wash levels. Then into the interior to have an explanation of the controls, switches and instruments including the seat/wheel adjustments, handbrake, lights, wipers etc.*

Next, the driving instructor will introduce the reversing exercise and uncoupling/recoupling, followed by pupil practice. Your lesson commences and you begin the process of developing ability and adapting to the vehicle. This continues during the morning, out on the road until lunch time, where there is time to reflect upon your performance so far.

In the afternoon more driver training will be conducted, the driving instructor will at all times be assessing the performance of the customer offering advice and improvements on technique. The driving will continue until around 3pm in the afternoon when the vehicle will arrive back at our training centre to continue with practicing the reverse exercise and uncoupling/recoupling the trailer, then at 4pm after a debrief close of day.
